Overview

Introduction

What is a lottery?

A lottery consists of three elements: prize, chance and consideration.

The first lottery with cash prizes dates back to 1490, two years before Columbus set sail. Lotteries were authorized to raise money for the colonial army. In addition, lotteries helped put a roof on the United States Capitol and build educational institutions like Harvard, Yale and Princeton universities.

It wasn't until 1964 that the modern lottery era began in New Hampshire, and since that time, 45 states, the District of Columbia, Mexico, Puerto Rico, the U.S. Virgin Islands and Canada have created lotteries. For a complete historical timeline of lotteries, visit www.naspl.org.

On Nov. 6, 1984, Missouri voters overwhelmingly approved the Missouri Lottery by passing Amendment 5, which repealed a section of the state's constitution prohibiting a lottery. The measure passed with 70% of the vote, making the Missouri Lottery the 23rd lottery in the United States.

Missouri's Lottery

Missouri Lottery ticket sales began 36 years ago in January 1986, and since that time, the Lottery has provided the state, including education, with more than **\$7 billion** in proceeds, as of publication date. Additionally, more than 597 players have won life-changing jackpots between \$1 million and \$293.7 million, totaling more than \$3.6 billion. Missouri Lottery retailers have earned more than \$1.6 billion in commissions, incentives and bonuses.

A five-member commission, appointed by the governor and approved by the Senate, governs the Lottery. The executive director oversees the daily operations of the government agency.

The Missouri Lottery is based in Jefferson City with three regional offices located in: Kansas City, St. Louis and Springfield. The Lottery is broken down into four divisions: Division of Sales, Division of Operations, Division of Executive Director's Office, and Division of Marketing.

Phony Promotions, Illegal Schemes and Bogus Emails (Spam)

According to the Federal Trade Commission (FTC), consumers in the United States and other countries lose billions of dollars each year to fraudulent telemarketers, spam emailers, misleading advertisements and fake social media accounts that entice consumers into phony prize promotions and illegal foreign lottery schemes.

When it comes to fraud, being an alert informed consumer is the best way to protect yourself.

Recognizing Legitimate Contacts from the Missouri Lottery

To claim a Missouri Lottery prize, you will NEVER be required to send any money or give personal information by email, over the phone or through social media in an effort to collect promised winnings.

There are only a few instances that the Missouri Lottery may require a player to submit some personal information. These instances include:

1. Supplying their Social Security number on a Lottery provided claim form for prizes over \$600. **This information is never collected over the phone or by email.**
2. Verifying a winner's phone number and shipping address for prize redemption if the winner has entered promotions at MOLottery.com or one of the Lottery's social media contests and is selected as a prize winner.

In these instances, winners will always be able to verify their win at MOLottery.com or through the Lottery's official Facebook page. **Players will never be asked to submit private information or family data, like your mother's maiden name.**

In a few instances each year, a Lottery representative may contact a grand-prize promotion winner by telephone to interview them for a story. Winners are not required to provide vital information such as Social Security numbers or banking information. The call is always followed up with a letter and email and the player will be able to verify that their name was drawn by going to the Lottery's website. Missourians who receive unwanted telemarketing calls, unsolicited mail, spam email or social media messages can contact the Missouri Attorney General's Consumer Protection Division at 1-800-393-8222 or visit www.ago.mo.gov.

THE MISSOURI LOTTERY WILL NEVER...

- Contact you to say you have won a prize on any Draw Games or Scratchers tickets, as winners are not known until the prize is claimed.
- Require vital information, such as a Social Security number, bank account number, mother's maiden name, etc., over the phone.
- Require a winner to provide money to claim a prize.
- Give a winner less than the 180-day claiming period for Scratchers and Draw Games prizes won in the game.
- Use "pop-up" advertising at MOLottery.com.
- Confirm that a ticket is a winner over the phone.

The Games

Players must be 18 years or older to purchase a Missouri Lottery ticket.

Scratchers

The Missouri Lottery has offered players 1,314 different instant-win games ranging from \$1 to \$30 since the Lottery began in January 1986. These games have paid out prizes ranging from a free ticket to \$10 million.

Overall chances vary from game to game due to the variance in prize structures. Generally, [Scratchers](#) games have average chances of winning of 1 in 4, ranging from 1 in 4.75 in the \$1 games to 1 in 2.65 in \$30 games. Overall, approximately 71% of Scratchers sales are returned as prizes – ranging from 62% in \$1 games to 78% in \$30 games.

Draw Games

All Draw Games include an opportunity for players to select their own lucky numbers or let the computer select the numbers by using the Quick Pick feature. The percentages of Quick Pick sales for Draw Games overall is 65%. The percent of sales using Quick Pick by game are:

Mega Millions – 91%
 Powerball – 90%
 Missouri Lotto – 90%
 Cash4Life – 83%

Show Me Cash – 81%
 Club Keno – 35%
 Pick 3 – 31%
 Pick 4 – 16%

- **Ensure the wager on the Draw Games ticket is the one you requested before you exchange money for the ticket.** It is your responsibility to ensure that your ticket has the correct information, like the numbers played, dates played, type of play, etc.
- **Know when your tickets expire.** Draw Games tickets expire 180 days after the last winning draw date on the ticket. Scratchers games expire 180 days after the official game ending date. For a list of official Scratchers game ending dates and expiration dates, visit MOLottery.com.
- **Keep tickets in a safe place.** In order to claim any Lottery prize, you must have your ticket. Just like dollar bills, Lottery tickets are bearer instruments. From time to time, the Lottery receives tickets from players that have been destroyed by things like washing machines. Unfortunately, most of these tickets have been too badly damaged for the Lottery to reconstruct.
- **Always allow extra time for any damaged ticket you send to the Lottery for verification.** Damaged tickets will take more time to process.

Powerball

Powerball is a multi-state Draw Game run by the Multi-State Lottery Association (MUSL) in Urbandale, Iowa. Drawings are held in Tallahassee, Florida. The game began as Lotto America on Feb. 3, 1988, and changed to Powerball on April 19, 1992. Lotto America was also known in Missouri as Missouri's Megabucks before changing to Powerball. The minimum jackpot amount of \$40 million and minimum jackpot increases between drawings were eliminated April 2020 due to a nationwide reduction in Powerball play resulting from COVID-19. Starting jackpot amounts and jackpot increases for each draw when the jackpot is not won are now based on current game sales and interest rates.

- Select five different numbers from 1 to 69.
- Choose the Powerball number from 1 to 26.
- Or use Quick Pick ("QP") to allow the computer to choose the numbers randomly.

Game Options

- **Multi Draw:** Play the same numbers for up to 15 consecutive drawings by selecting "MULTI DRAW." Powerball can be played for 1, 2, 3, 4, 5, 10 or 15 consecutive drawings.

Powerball Power Play prizes can be increased 2, 3, 4, 5 or 10 times their base value, depending on the multiplier number drawn. The "10X" Power Play is added when jackpots are between \$40-\$150 million. Power Play applies to prizes from \$4 to \$50,000; the Match 5 prize with Power Play is always \$2 million, regardless of the Power Play number. Visit MOLottery.com for Power Play chances.

Powerball

Double Play drawings are held following the main Powerball drawing on Mondays, Wednesdays and Saturdays. Players who add Double Play to their Powerball tickets have the chance to win prizes of up to \$10 million, in addition to the chance to win in the main Powerball drawing!

Liability Limits

Two Missouri Lottery games – Pick 3 and Pick 4 – have liability limits, meaning players may be denied the purchase of numbers when a certain number of tickets with a particular combination have been sold. Liability limits have been placed on these games to keep the Lottery from selling more winning tickets than it can pay. The liability limit is \$1.5 million for Pick 3. Setting liability limits is standard in the lottery industry on games with fixed payouts.

Once the EZ Match option is chosen, four EZ Match numbers will print on the Pick 4 ticket below the Pick 4 numbers. If any of the EZ Match numbers match the selected Pick 4 numbers (regardless of the order), the player instantly wins the prize amount printed next to the matched EZ Match number(s).

Liability Limits

Two Missouri Lottery games – Pick 3 and Pick 4 – have liability limits, meaning players may be denied the purchase of numbers when a certain number of tickets with a particular combination have been sold. Liability limits have been placed on these games to keep the Lottery from selling more winning tickets than it can pay. The liability limit is \$1.5 million for Pick 4. Setting liability limits is standard in the lottery industry on games with fixed payouts.

Club Keno

Club Keno is a daily Draw Game that gives players a chance to win up to \$100,000 per \$1 ticket or up to \$1 million with Double Bulls-Eye. Drawings are held every four minutes from 5:04 a.m. to 1:52 a.m. The traditional Club Keno is available at approximately 800 social environment locations like restaurants, bars and fraternal organizations. The drawings are shown on television monitors (video only; no audio) at the retail location. The Draw Game officially began on May 28, 2002.

Keno To Go is available at convenience stores, grocery stores and similar locations.

To Play Club Keno

- To play, choose how many different numbers (also called "spots") you want to play from 1 to 10 or by using Quick Pick. Twenty numbers from a field of 1-80 will be chosen randomly by the computer. Players win for the drawing they played if their numbers match those drawn. The more numbers a player matches, the more they will win. Players can even win by not matching any spots in a 10-spot game. Club Keno can be played for 1, 2, 3, 4, 5, 10 or 20 consecutive draws.

Game Options

- Multiplier:** This option provides the opportunity to multiply a prize up to 10 times the base amount, up to \$1 million.
- Bulls-Eye:** This option provides larger prizes and more chances to win.
- Double Bulls-Eye:** This option provides more chances at larger prizes and more chances to win.
- Progressive:** A FREE feature. Play the 6-, 7- or 8-spot games for a chance at an added rolling jackpot bonus, in addition to regular top prizes for these spots.

Progressive Jackpot with 6-, 7- and 8-Spot Games

The 6-, 7- and 8-spot games have an extra rolling jackpot prize called "Progressive." Players are automatically eligible if they choose to play any of these three spots. **There is no additional cost and nothing additional to mark on the playslip.** The Progressive feature adds a rolling jackpot bonus prize in addition to the regular top prizes on these spots (6 of 6, 7 of 7 or 8 of 8 numbers matching those drawn). It is a pari-mutuel jackpot prize, meaning the prize varies depending on the total amount played and number of winners. If a player matches all the numbers on a 6-, 7- or 8-spot game, the player will automatically win both the regular prize and the rolling jackpot bonus prize. If the jackpot is not won during the drawing, it continues to grow.

Progressive Jackpot on Club Keno Monitor

The Keno Progressive jackpot amount is the base play for that spot play and bonus jackpot amount. Example: The base for matching all eight numbers on an 8-spot game is \$10,000. When the monitor displays \$10,500 for the 8-spot Progressive jackpot, it is equal to the \$10,000 base plus the jackpot bonus amount of \$500.

Club Keno

Multiplier Feature

With this feature, players have the option to win up to 10 times the prize amount on all Club Keno base prizes (up to \$1 million). Multiplier costs an additional \$1 per \$1 play. Before each drawing, a wheel is spun to determine the Multiplier number for that drawing. The wheel includes 80 slots with the numbers 1, 2, 3, 4, 5 and 10. Those numbers represent the amount of the Multiplier. See the chart below for overall chances for the Multiplier.

Multiplier number	Number of times each number appears on the wheel	Overall chances of number being selected is 1 in:
1	32	2.5
2	34	2.35
3	5	16
4	5	16
5	3	26.67
10	1	80

Chances of at least 2 being selected are 1 in 1.67

Bulls-Eye Feature

The Bulls-Eye option offers larger prizes and more chances to win. One of the winning 20 numbers drawn every four minutes is the red Bulls-Eye number. Every time a player uses Bulls-Eye and matches the Bulls-Eye number, they will win bigger prizes. Players can win a Bulls-Eye prize even if they don't win a Club Keno prize. There are three ways to win when Bulls-Eye is added:

1. Match your number to the Bulls-Eye number drawn with no other Club Keno numbers matching those drawn.
2. Match your numbers to the Bulls-Eye number and additional Club Keno numbers drawn.
3. Match your Club Keno numbers to those drawn with no Bulls-Eye number match.

The total cost of the transaction will be double, meaning the Bulls-Eye wager will always match the amount of your Club Keno wager.

Club Keno

Double Bulls-Eye Feature

The Double Bulls-Eye option offers even larger prizes and more chances to win. During every Club Keno drawing, 20 winning numbers are drawn. At the end of that drawing, one of those numbers is selected as the red Bulls-Eye number. With the addition of Double Bulls-Eye, a second Bulls-Eye number (green) will be drawn after the first Bulls-Eye number has been drawn. Players who play Double Bulls-Eye will win when they match either the red or green Bulls-Eye number and even more when they match both Bulls-Eye numbers for Double Bulls-Eye. There are five ways to win when Double Bulls-Eye is added to a Club Keno Play:

1. Match the Club Keno numbers played to **either** the red **or** green Bulls-Eye numbers with **no** other Club Keno numbers matching those drawn.
2. Match the Club Keno numbers played to **either** the red **or** green Bulls-Eye numbers **and** additional Club Keno numbers drawn.
3. Match the Club Keno numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye) with **no** other Club Keno numbers matching those drawn.
4. Match the Club Keno numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye) **and** additional Club Keno numbers matching those drawn.
5. Match the Club Keno numbers played to those drawn with no Bulls-Eye numbers matched.

Club Keno plays with Double Bulls-Eye cost an extra \$2 per \$1 Club Keno play (\$1 Club Keno + \$2 Double Bulls-Eye = \$3 per Double Bulls-Eye wager).

Depending on a player's income situation, he or she may owe additional taxes or may receive a refund. A W-2G form is printed on check stubs for prizes of \$600 or more.

Missouri Lottery Drawings

The Lottery's computerized drawing system, which was implemented on July 20, 2020, uses technology to select the numbers for the in-state Draw Games.

The computerized system, named Origin (manufactured by Smartplay International, Inc.), is housed in a secure draw room in Jefferson City. These draw systems are not connected to the Internet or any other network source. The room has no other phone or data lines from which to send or receive information.

The system is operated by a Lottery employee Draw Manager in the presence of an Independent Auditor. The system is designed to draw games in "Game Sets," which include all games to be drawn at either the Mid-day or Evening draw time. Each Game Set may only be drawn once per day and only within specific timeframes.

Only designated Missouri Lottery drawing personnel and an Independent Auditor are allowed in the room during a drawing. Every drawing is monitored by special motion-activated video cameras which videotape every action on the draw computers and in the drawing room.

Access to this room is further limited by secure keypad access that allows only designated draw personnel to enter the room. Furthermore, the Origin System used to draw the numbers is randomly selected from one of two identical systems prior to the draw. These systems require user-specific usernames and passwords. Consequently, only designated draw personnel will be able to login to the system to perform any drawing. In addition to the motion-activated video cameras in the draw room, all activity on the Origin System is electronically logged.

The Origin System continuously tests its Random Number Generators (RNGs) to ensure they are operating within acceptable parameters. These RNGs are connected to the system via the Random Number Server (RNS), which is not physically accessible to Missouri Lottery employees as it is housed in a locked chassis. An alarm system connected to this locked chassis will alert the Origin System if it detects a physical intrusion, and will lock the system down.

Gaming Laboratories International certified the Origin System's equipment, components, and computer software which created "checksum" values providing the underlying security of the drawings. Before each drawing, these checksums are verified by both the Draw Manager and the Independent Auditor to confirm the continued integrity of the system's software.

Lastly, the Origin System maintains logs and tables of data traffic and activity as it occurs. With this information, Missouri Lottery Security personnel are able to "reconstruct" any drawing that has taken place to confirm its validity.

Winner Information

Winner Information and Remaining Prizes

Winner Information

During FY21 (July 1, 2020, to June 30, 2021) **EVERY DAY** more than 288,000 tickets sold were a winning ticket. In total, players won more than \$1.2 billion in FY21. To date, Missouri Lottery players have won more than \$17 billion in prizes overall.

In FY21, 36 life-changing prizes ranging from \$1 million to \$10 million were won in Missouri, totaling more than \$73.1 million. Also in FY21, 52 Show Me Cash players won between \$50,000 and \$755,000, and 41 Powerball players won between \$50,000 and \$150,000.

Unclaimed Scratchers Prizes

Scratchers players can view and compare unclaimed prize information for all active [Scratchers](#) games at [MOLottery.com](#) and on the Missouri Lottery app. On the main Scratchers page, players can compare the unclaimed prizes in the top four prize levels of each game, along with the total cash prizes unclaimed for that game, with all other games that are currently selling in retail locations.

Since many different games can be offered at one time, Scratchers players can sort the list by ticket price. Once the page reloads, the list will be reorganized with all the games at that price point for each comparison. The list can also be sorted by start date, game number and game name.

By clicking on the game name in the list, players are directed to a more detailed page about that game. Information on the page includes all prize levels listed for that game and corresponding unclaimed prize information, total cash prizes won and unclaimed for that game, how-to-play instructions, a graphic of the game ticket and average chances of winning a prize in that specific game. Unclaimed prize information is updated daily.

Unclaimed Prizes

Unfortunately, some players don't realize they have won a Missouri Lottery prize. Sometimes tickets are mistakenly thrown away, a redemption deadline lapsed or a simple error was made when looking at the ticket. Whatever the reason, approximately 1% of sales will be reflected in [unclaimed](#) prizes each year.

Currently, unclaimed prize money is transferred to the Lottery Proceeds Fund to benefit public education. Prior to fiscal year 2001, unclaimed prize money was returned to players as prizes and promotions.

The largest Missouri prize to go unclaimed was a Lotto prize worth \$3.5 million from the Nov. 12, 2016, drawing. That ticket was sold at Hermann Fuel Mart, 115B Highway 19, in Hermann. Another Lotto jackpot worth \$1.7 million from the Feb. 20, 1999, drawing previously expired.

Annual Comprehensive Financial Report

Each fiscal year, the Missouri Lottery compiles a thorough presentation of the organization's financial condition, known as the [Annual Comprehensive Financial Report](#). This detailed report includes four sections – introductory, financial, statistical and compliance – which outline the Lottery organization, its business practices, financial expenditures and disclosures. An independent audit report is also included in the Annual Comprehensive Financial Report.

Where Do Missouri Lottery Proceeds Go?

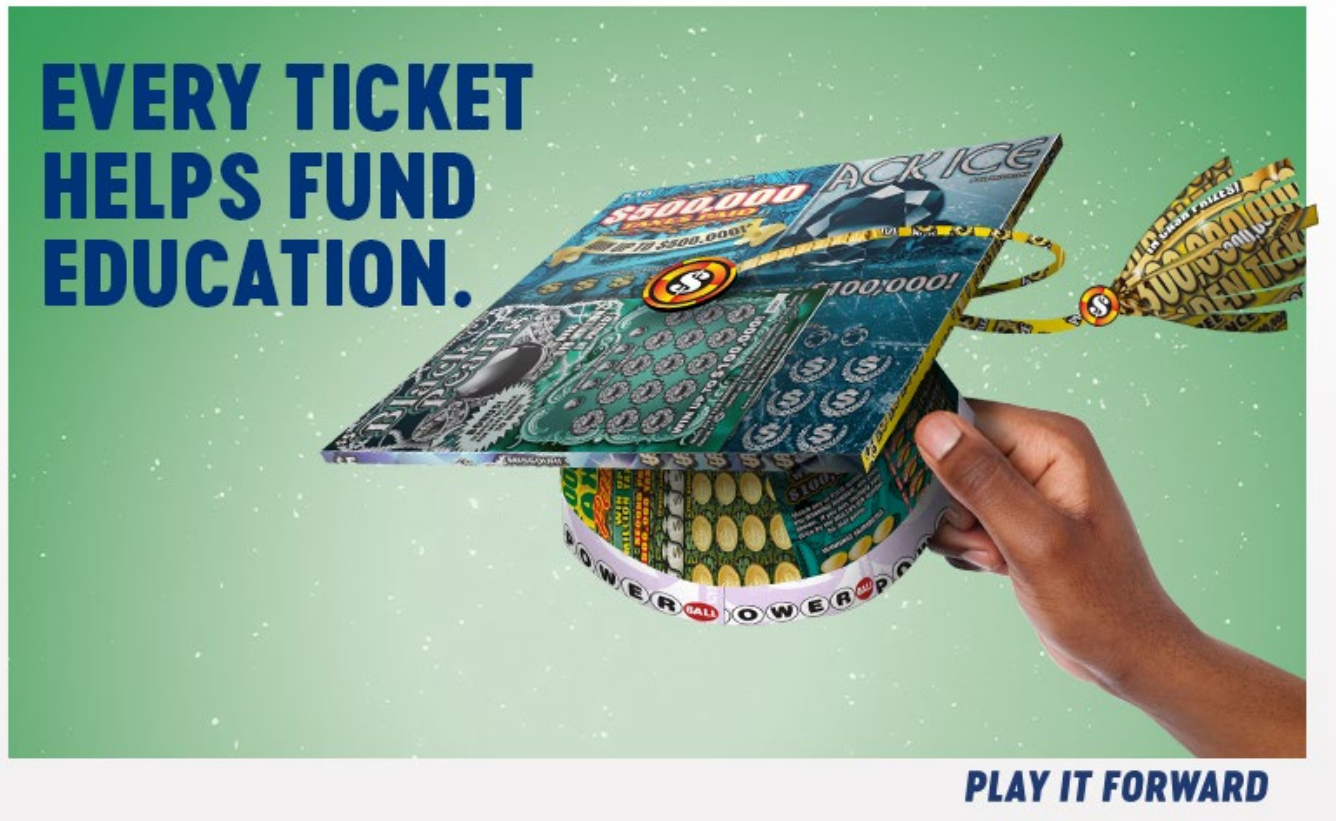

Fiscal Year Results:

Missouri Lottery net profits from sales in FY21 resulted in an increase of more than \$345 million to the state for public education.

How Proceeds are Allocated:

When the Lottery began in 1986, proceeds from ticket sales went to the Missouri State General Revenue Fund. In August 1992, voters passed Amendment 11 earmarking Lottery proceeds to solely benefit public education. Each year, the Missouri Legislature determines how these proceeds will be allocated. The proceeds represent about 4% of the total funding for Missouri's public elementary, secondary and higher education systems.

Lottery funds help support a [variety of programs](#) including the A+ Scholarship Program, Virtual Schools, Special Education Excess Costs, operating costs at colleges and universities and educational scholarships. These programs and others that receive Lottery money provide the resources that help Missouri students fulfill their individual dreams – dreams that define Missouri's future and ultimately benefit all Missouri residents.

FY22 Missouri Lottery Appropriations

Since 1986, the Missouri Lottery has contributed more than \$7 billion to the state of Missouri and public education. Annual Lottery contributions comprise about 3-4% percent of the state's funding for public education – an effort shared by local, state and federal governments.

For fiscal year 2022, more than \$337 million from Lottery proceeds have been appropriated to Missouri's public education programs by the Missouri Legislature through House Bills 2, 3 and 6 from the 101st General Assembly. The following is a list of programs that will receive Lottery proceeds.

Missouri AMBER Alert

In the fall of 2001, the National Center for Missing & Exploited Children (NCMEC) launched the [AMBER Alert](#) – America's Missing: Broadcast Emergency Response – nationwide. The goal of the program is to assist cities and towns across the U.S. with creating their own emergency alert plan.

In May 2005, Missouri joined the AMBER Alert Web portal, a nationally connected communication system to help ensure the safety and rescue of missing children.

The Missouri AMBER Alert program is a statewide program designed by the Missouri Department of Public Safety to inform the public of the most serious child-abduction cases. The Missouri Lottery partners with other state and private organizations to communicate the Alerts and utilizes its various communication channels to disseminate AMBER Alert messages to approximately 4,700 retailers and thousands of Lottery players through its social media channels.

How Does Missouri AMBER Alert Work?

Once law enforcement has been notified about an abducted child, they must first determine if the case meets the activating Missouri AMBER Alert criteria:

- Law enforcement officials confirm that a child has been abducted;
- Law enforcement officials believe that the child could be in serious imminent danger; and
- There are sufficient details concerning the abduction to make a public alert useful.

If these criteria are met, Alert information must be put together for public distribution. The information can include descriptions and pictures of the missing child, the suspected abductor, a suspected vehicle and any other information available and valuable to identifying the child and suspect.

The Missouri Lottery's Role

Missouri Lottery retailers and players are in a unique position to help spot missing children. In the event of a Missouri AMBER Alert, the Lottery will send messages through the terminal to retailers. In addition to the online terminal retailer message, the Missouri AMBER Alert message will be broadcast on monitors in retail locations.

When possible, this message will also appear on all Draw Games tickets. In addition, the Lottery will publicize the message on the Missouri Lottery Facebook and Twitter accounts.

Missouri Blue Alert

In 2015, Congress passed the Rafael Ramos and Wenjian Liu National Blue Alert Act, named in honor of two New York City police officers killed in an ambush attack on Dec. 20, 2014. The Act establishes a voluntary nationwide system to give police an early warning of threats against police officers and to aid in the apprehension of suspects who have killed or seriously injured an officer. In 2016, the Office of Community Oriented Policing Services (COPS Office) was asked to implement the Blue Alert Act and establish a [National Blue Alert Network](#).

Blue Alerts provide for rapid dissemination of information to law enforcement agencies, media, and the public about violent offenders who have killed, seriously injured, or pose an imminent and credible threat to law enforcement. Blue Alerts can be transmitted via wireless devices and through the Emergency Alert System (EAS). The National Blue Alert Network works to encourage, enhance, and integrate Blue Alert plans throughout the United States.

The [Missouri Blue Alert](#) program originally began Aug. 28, 2017, and the Missouri Highway Patrol placed information about the program on their website.

How Does Missouri Blue Alert Work?

- All Missouri law enforcement agencies are notified through an email alert.
- Broadcasters and media are notified.
- The public will receive a Wireless Emergency Alert (WEA) message on their cell phone.
- The Missouri Department of Transportation will be notified to activate message signs, if practical.
- The Missouri Lottery will be notified to activate message signs, if practical.

The Missouri Lottery's Role

Similar to the Missouri AMBER Alert, Missouri Lottery retailers and players are in a unique position to spread the Blue Alert and help look for the suspect. In the event of a Missouri Blue Alert, the Lottery will send messages through the terminal to retailers. In addition to the online terminal retailer message, the Missouri Blue Alert message will be broadcast on monitors in retail locations.

When possible, this message will also appear on all Draw Games tickets. In addition, the Lottery will publicize the message on the Missouri Lottery Facebook and Twitter accounts.

Responsible Gaming

Responsible Gaming Program

With many things in life, there are people who have problems with moderation. Gaming is no exception. Up to 5% of gamblers have problems playing responsibly and could be considered "compulsive" or "pathological" gamblers.

Responsible Gaming Mission:

As a gaming entity, the Missouri Lottery recognizes that while the vast majority of Lottery players gamble responsibly, a small number of Lottery players can experience personal, financial and social difficulties due to playing Missouri Lottery games. Therefore, it is the responsibility of the Missouri Lottery to promote responsible gambling, take part in responsible gambling activities and promote the availability of problem gambling treatment.

What Is Problem Gambling?

Problem Gambling is a behavior disorder in which an individual has an uncontrollable urge to gamble. Similar to nicotine or alcohol addiction, problem gambling is a progressive addiction characterized by increasing preoccupations with gambling, a need to bet more money more frequently, restlessness or irritability when attempting to stop, "chasing" losses and loss of control. These characterizations are manifested by a continuation of the gambling behavior in spite of any mounting psychological, physical, social, vocational and financial consequences.

Do You Have A Problem? Problem Gamblers:

- Frequently think about past gambling experiences, future plans or how to get money for gambling;
- Need to increase spending to reach a high level of excitement;
- Have failed at stopping or controlling gambling;
- Become restless and/or irritable when trying to cut back or stop gambling;
- Gamble to escape problems and to feel better;
- Frequently return to "get even" after experiencing losses (chasing one's losses);
- Lie to cover up gambling activity;
- Have committed or planned illegal acts to finance gambling;
- Have problems with job, school or relationships;
- Rely on others to help out financially.

How To Get Help:

The first step in overcoming a compulsive gambling disorder is admitting that there is a problem and recognizing that help is needed. If you think you or a loved one have a problem with gambling, please:

Midwest Conference on Problem Gambling and Substance Abuse

The Missouri Lottery is a member of the Midwest Conference on Problem Gambling and Substance Abuse ([MCPGSA](#)), a committee comprised of addiction specialists, problem gambling program coordinators and organizations throughout a five-state region: Iowa, Kansas, Missouri, Nebraska and Oklahoma. The focus of the MCPGSA is to plan an annual problem gambling and substance abuse conference that hosts speakers and participants working within the fields of addiction, mental health and clinical treatment from throughout the country.

The Lottery's Responsible Gaming Coordinator serves as a contributor in the Conference. The Lottery's Graphic Designer provides graphic and website assistance.

North American Association of State and Provincial Lotteries

The Lottery's Responsible Gaming Coordinator has served as a member of the North American Association of State and Provincial Lotteries ([NASPL](#)) Responsible Gaming Committee. The delegation exists to develop and promote programs to contribute towards the progression of responsible gaming in all lottery organizations.

In FY17, the Missouri Lottery became one of the first NASPL-member lottery organizations to receive the "Implementation Level" certification. The distinction is the second-highest responsible gaming certification available in the United States and was awarded through a joint verification process with NASPL and the National Council on Problem Gambling (NCPG). In FY20, the Lottery received the highest "Sustaining Level" certification for its responsible gaming program.

World Lottery Association Certification

In FY19, the Missouri Lottery became one of the first eight U.S. lottery to attain the World Lottery Association's ([WLA](#)) Level 4 certification under the Responsible Gaming Framework. The designation is the most prestigious of its kind within the lottery industry and signifies the Lottery's dedication to continuous improvement within corporate social responsibility. To qualify, applying lotteries must demonstrate a commitment to corporate social responsibility and that responsible gaming exists at all levels of operation as demonstrated through 10 program elements. These elements include:

1. Research
2. Employee Program
3. Retailer Program
4. Game Design
5. Remote Gaming Channels
6. Advertising and Marketing Communications
7. Player Education
8. Treatment Referral
9. Stakeholder Engagement
10. Reporting and Measurement

The Missouri Lottery will be seeking Level 4 recertification in 2022. The Lottery previously earned the Level 3 certification in FY14 — the sixth U.S. lottery to do so — and was one of the first U.S. lotteries to achieve a Level 2 certification in FY13.

Responsible Gaming Program

Annual McGill Holiday Campaign

Each holiday season, the Missouri Lottery participates in an [annual holiday awareness campaign](#) that focuses on promoting responsible gaming and not gifting lottery products to minors during the holiday season. The campaign is sponsored by McGill University, the International Centre for Youth Gambling Problems and High-Risk Behaviors and the National Council on Problem Gambling. Each year, dozens of lottery organizations from around the world participate in the program.

'Beat Addiction: Choose the Right Path' Program

In August 2000, the Missouri Alliance to Curb Problem Gambling kicked off a youth gambling prevention campaign to help educate youth, parents, school counselors, officials and the general public about the dangers of gambling at a young age. The campaign included posters, brochures, speaker presentations, informational mailings to school counselors and attendance at educational conferences throughout the state. With assistance provided through the Division of Guidance and Placement at the Missouri Department of Elementary and Secondary Education, the campaign was designed to be the initial step in creating a program to raise awareness about problem gambling.

In 2002, the Lottery developed and distributed an award-winning youth addiction prevention program called "Beat Addiction: Choose the Right Path." The program was designed to teach students risk factors of addiction and the information necessary to make healthier choices. The program featured a video, curriculum and informational brochures that focused on one woman and her family's struggle with addiction. The program, which was recommended for grades 9-12, was made available for free to all Missouri schools. More than 1,000 Missouri schools requested copies of the video kit. The video was also used and shown in several other states and countries throughout the world.

In 2008, the Beat Addiction program was revised and updated. The updated version, which is recommended for grades 6-12, features six testimonials and re-enactments about teens who have battled various addictions, including: gambling, marijuana, methamphetamine, cocaine, heroin and alcohol. The revised edition also includes the original program from 2002, a facilitator's guide and poster. The facilitator's guide was developed with assistance from the Missouri Department of Elementary and Secondary Education to incorporate the Missouri Show Me Standards, which are curriculum guides established in response to federal mandates.

'DO THE RIGHT THING' Retailer Integrity and Responsibility Program

Every August, the Missouri Lottery's Sales team oversees an annual compliance check with approximately 4,799 Lottery retailers. These checks ensure that the Lottery's retailers are following responsible gaming protocols such as player age confirmation, verification of secure Scratchers tickets storage and having Lottery-provided responsible gaming information readily accessible to players. Since 2017, approximately 92% of Missouri Lottery retailers have met the standards as outlined in the "Do The Right Thing" program.

Self-Exclusion Program (SEP)

The Missouri Lottery's [Voluntary Self-Exclusion Program \(SEP\)](#) is a responsible gaming resource for players who classify themselves as problem or pathological gamblers to reduce the incentive to play Lottery games. Introduced on Aug. 1, 2013, individuals who enter into the SEP will be prohibited from claiming prizes of more than \$600, accessing the *My Lottery*® Players Club and from receiving Lottery-generated text messages and emails.

Individuals wishing to self-exclude themselves can find the SEP application at [MOLottery.com](#) under the "[Play Responsibly](#)" page. Applications can also be obtained when visiting a Lottery office or through the mail. Individuals should sign, notarize, then submit agreements to the Lottery. In the agreements, players acknowledge they are voluntarily applying to be a part of the program for life.

Completed and notarized forms can either be hand delivered to any Lottery office or mailed to the Lottery at:

Frequently Asked Questions

Q. Do Lottery proceeds really go to schools?

A. Yes. All profits – 100% – go to Missouri [public education](#). Annual Lottery proceeds make up approximately 3-4% of the state's funding for public education.

Q. Does the Missouri Lottery offer subscription sales to players?

A. No. Players can purchase Missouri Lottery tickets from a licensed Missouri Lottery retailer. The Lottery cannot mail tickets across state lines.

Q. Can I purchase Lottery tickets online?

A. No. The Missouri Lottery does not currently offer sales via the internet.

Q. Can I use my debit or credit card to purchase a Lottery ticket?

A. Yes. There are no Missouri laws or Lottery policies that prevent the purchase of Lottery products at the counter using debit or credit. The Lottery leaves that up to the discretion of our retail partners. Each retail location is given the freedom to accept (or not accept) debit or credit cards for Lottery purchases, based on their own business goals and guidelines. When in doubt, ask the clerk. In addition, hundreds of Lottery vending machines have been equipped to handle cashless transactions.

Q. Who oversees casinos and bingo games?

A. Casinos and bingo games are not a part of the Missouri Lottery. They are governed by the Missouri Gaming Commission.

Q. Who is the "average" Missouri Lottery player?

A. The average player is a 48.1-year-old caucasian employed female that is a high school graduate with some college education.

Q. Is there a danger of Lottery players becoming compulsive gamblers?

A. Studies show that about 1% - 5% of those who participate in any kind of gambling activity can experience a gambling problem.

Q. How can I become a Missouri Lottery retailer?

A. Only businesses located within the state of Missouri can be Missouri Lottery retailers. Visit retailer.molottery.com to learn more or see page 44 in the Fact Book.

Q. If I win a big jackpot prize or an annuitized Scratchers prize and die before I receive it all, where does the remaining money go?

A. When a winner receiving annuity payments dies, the Missouri Lottery continues to make payments to the winner's estate.

Q. Where can I find past winning numbers?

A. You can find complete lists of past numbers drawn in the "[Winning Numbers](#)" section at MOLottery.com, more recent winning numbers can also be found on the Lottery's mobile app or by calling the winning numbers hotline 573-751-1111.

Q. Why is the cash value of a jackpot only about half of what is advertised? Where does the rest of the money go?

A. The lump-sum payment is approximately half of the advertised amount since the Lottery will be giving you the money it would have invested over 29 years (30 graduated payments) for a [Powerball](#) jackpot or a [Mega Millions](#) jackpot, 24 years (25 payments) for a [Lotto](#) jackpot or a guaranteed minimum of 20 years for [Cash4Life](#).

Q. Are the terminals in retail locations and the drawing equipment connected in any way?

A. No. Each drawing machine is self-contained and independent of any other system. See Draw information on pg. 37 for complete details.

Q. Does anyone in Missouri ever win the Powerball jackpot?

A. Out of the 47 lotteries participating in the Powerball game, Missouri ranks second behind Indiana in the number of Powerball jackpot winners with 31.

Q. Can a group of people claim a prize?

A. Yes. Each member will need to complete and submit a claim form.

Q. Can Powerball, Mega Millions and Cash4Life players redeem their winnings in any member state?

A. No. Players must redeem their prizes in the same state they bought the tickets.

Q. Since so many people play Powerball, Mega Millions and Cash4Life, aren't the chances of winning worse?

A. No. No matter how many people play these multi-state games, the chances of winning never change. The chances are based on the amount of number combinations, not the number of players.

Q. If I buy a Quick Pick ticket, can anyone else buy those numbers using Quick Pick?

A. Yes. Quick Pick tickets are generated randomly by the terminal at the retail location, and there is no central computer that is controlling ticket generation. The chances of buying a Draw Games Quick Pick ticket with the same numbers as someone else are the same as the chances of winning the jackpot.

Q. If I should win the jackpot, do I have the option of remaining anonymous to the public and the media?

A. The Lottery does not release names or other personally identifiable information without the written consent of the player. Information about the amount of the prize and where the ticket was purchased will be released.

Q. Where can I hear about top-prize winners in Missouri Lottery games?

A. News releases of \$1,000 or more are sent to media throughout the state. They are also posted in the [Newsroom](#) section at MOLottery.com. A map of Missouri marking retail locations where prizes of more than \$1,000 were sold is also posted on MOLottery.com each month.

FAQs

Q. Does anyone know where the winning Scratchers tickets are located?

A. No. Because of strict security measures, no one – including Missouri Lottery employees – knows where winning Scratchers tickets are located. Additionally, the Lottery does not know when a top prize-winning Scratchers ticket is sold until the ticket is redeemed.

Q. Are there fewer Scratchers prizes now?

A. No. The chances of winning Scratchers games continue to improve. In the Lottery's early days, the games only paid out 45% of sales in prizes, the maximum amount allowed by law at the time. Today's Scratchers games pay out an average of 71% of sales in prizes, and an average of approximately 1 in every 4 tickets produced is a winner.
